

MERCI DI CULTO<sup>©</sup>  
jewellery collection

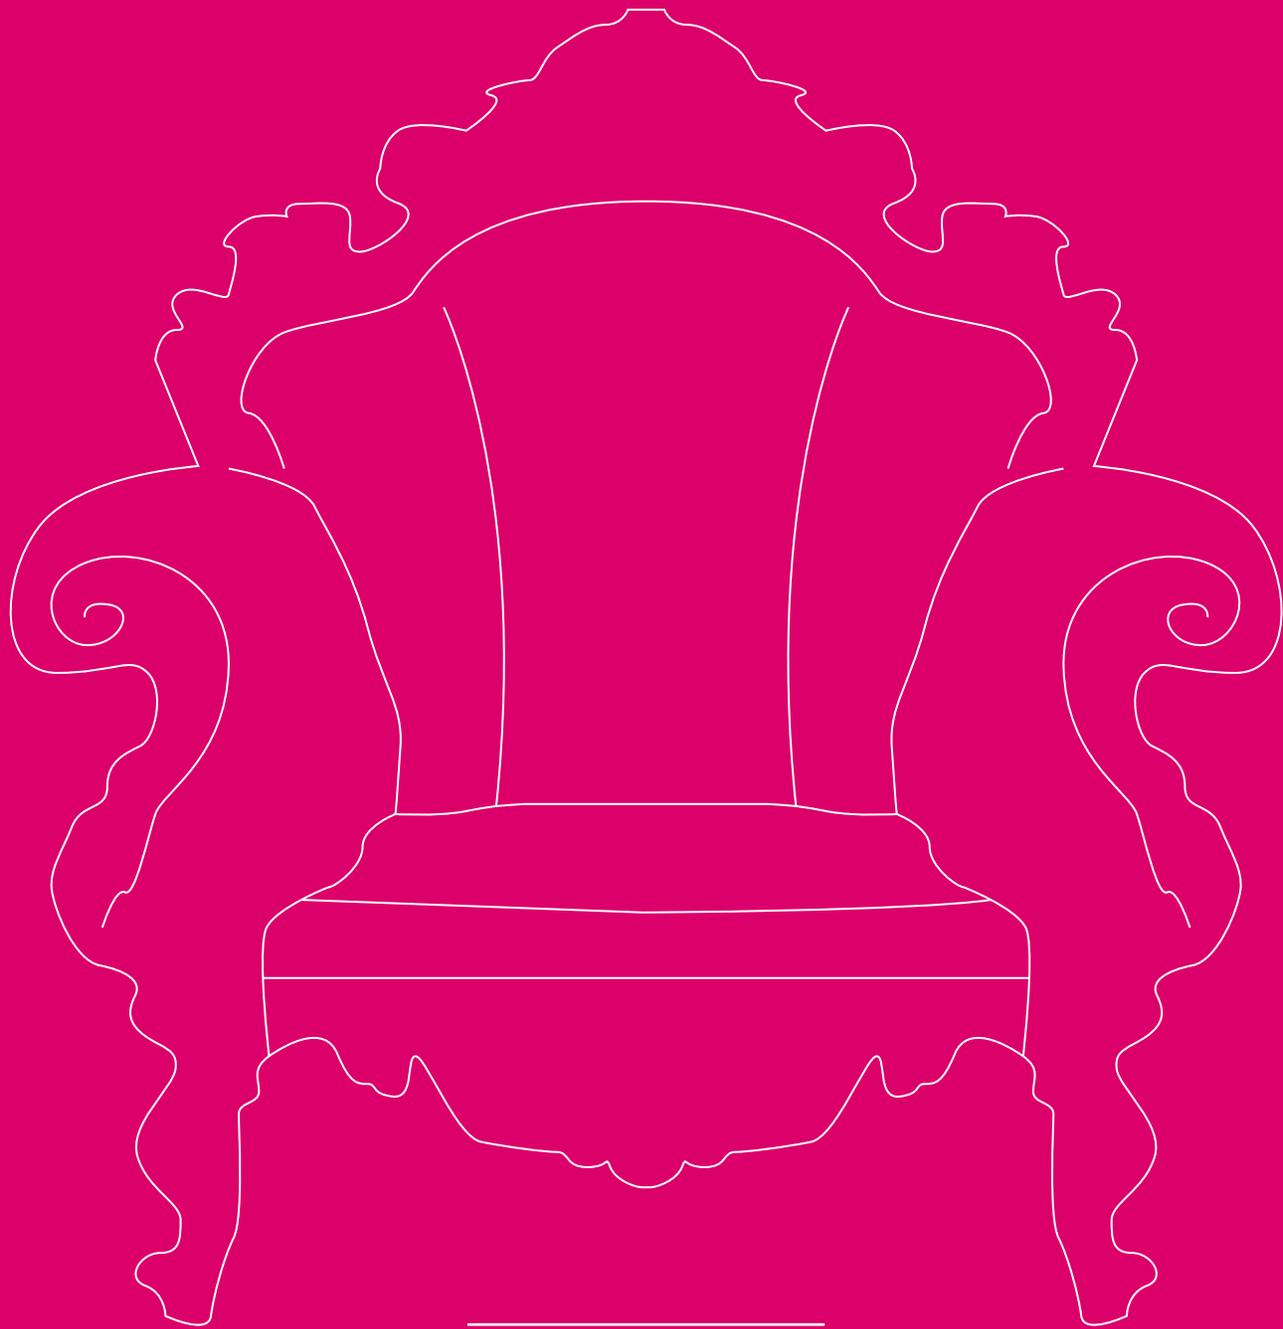

Il filo conduttore della collezione è un omaggio al design e alla sua storia, richiamando alla memoria ciò che Carmagnola e Ferraresi hanno definito “merci di culto”. In questo regno la merce è molto più che se stessa; in essa convergono un’infinità di interessi e suggestioni collettive, ricche di valenze evocative.

La collezione è insieme luogo d’incontro, di evocazione e narrazione in divenire, grazie anche alla scelta del materiale specchiante, tanto leggero e prezioso, da sembrare, nel caso degli orecchini o delle collane, parte integrante del corpo di chi li indossa.

*The underlying theme of his collection was a tribute to the design and its history, recalling that Carmagnola and Ferrara have called “merci di culto”. It refers to what Carmagnola and Ferraresi define as “Merci di Culto”: In this reality, goods are much more than they seem: they reflect a multitude of interests and collective suggestions. The collection represents both an evocation and a narration of the future, with the mirror material, so light and precious, that seems an integral part of the body. The plastic box packaging, also light and transparent, adds to the product an image of authenticity and modernity.*

“89.24.24 - generazione senza miti”

Warhol negli anni 60 prende una ragazza (Marilyn Monroe) e la trasforma in un' icona generazionale, nel 2012 Gec prende l'icona e la riporta ad essere ragazza semplice, senza trucco, lavoratrice in un call center come tante.

La rappresentazione semplice, immediata, disincantata dei nostri tempi bui.

## MUSUBI

Nuova collezione disegnata dal designer YUSUKE TAGUCHI per Merci di Culto ispirata a MIZUHIKI.

In Giappone questa tecnica viene utilizzata per applicazioni destinate pacchetti regalo, biglietti augurali, ecc. dei momenti più importanti della vita (nascita, matrimonio, compleanni, ). Non si tratta di una semplice “decorazione”, bensì di un modo per sottolineare, attraverso il filo, il “legame” tra le persone ed il desiderio di proteggerle.
