

MARMOLE

# MARMOLE

Alessandra Scarfò Design | Merci di Culto

*Marmole* è un tagliere elegante che abbina due elementi naturali il marmo e il legno, materiali portatori di qualità talvolta opposti: durezza e flessibilità, leggerezza e stabilità, resistenza e impermeabilità, eleganza e calore...

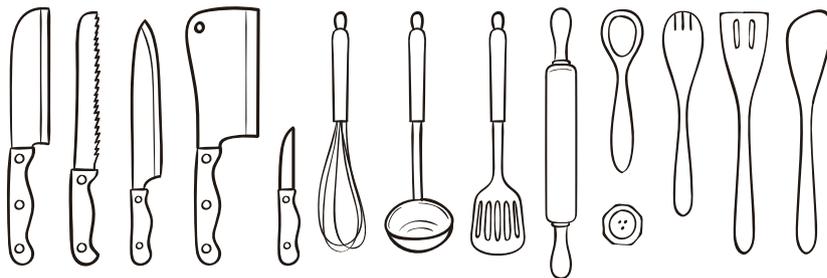

*Marmole* coniuga le caratteristiche dei due materiali dando vita ad un tagliere pratico e funzionale per usi domestici.

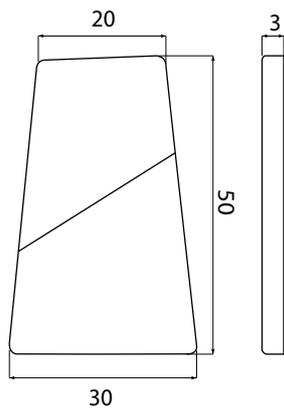

Il design di *Marmole* nasce da un arcano desiderio di fondere in un unico oggetto materiali di per sè diversi per natura, composizione e funzionalità che diventano complementari nell'uso.

*Marmole is an elegant cutting board that combines two elements natural marble and wood, materials bearers of quality sometimes opposites: hardness and flexibility, lightness and stability, resistance and impermeability, elegance and warmth ...*

*Marmole combines the characteristics of the two materials, creating a cutting board practical and functional for household.*

*The design of Marmole arises from an arcane desire to merge into a single object materials different by nature, composition and functionality which become complementary in use.*
